Confirmation of Donation

Dear Prof. Stolker,

At Aramco, we are proud to collaborate with local partners for the benefit of the communities in the areas in which we operate.

We are committed to citizenship and over the last year, we have expanded our support and activities in Europe, supporting the education of over 20,000 students, training over 3000 teachers and reaching over 150 schools and universities. We have contributed to research programs and helped to protect the environment and biodiversity in our cities and wider regions. We are proud to work alongside our citizenship partners and create opportunities as well as enable environmental sustainability for the people and the planet.

It gives me great pleasure to inform you that our Corporate Donation Committee would like to support "Diversity and Unity: the Majestic Civilisations of the Arab World" and is offering a donation of USD

5.1.2b, 5.1.2f towards this initiative.

We are happy to continue to support Leiden University and be a part of a project that enables knowledge and education within our community.

Our 5.1.2e will be in touch to take the process forward. Alternatively, she may be contacted at 5.1.2e aramcouk.com or 5.1.2e

We look forward to working and collaborating with you on this initiative.

Kind regards,

5.1.2e

Aramco Overseas Company
