Thank you for sharing. I'll do my best to prepare some documentation. I will share, later a drive with you.
Best regards.

Dear Leon,

I just had a quick conversation with 5.1.2e and she would prefer if we move the workshop with ENAR to Thursday, 16th of March as this is the date when the students are in the faculty.

In this sense, the tentative program will be

Sunday 12th (arrivals)
Monday 13th (Welcome at NIMAR and following the Bouregreg River)
Tuesday 14th (Tetouan)
Wednesday 15th (Fes/Sefrou)
Thursday 16th (Workshop wit ENAR)
Friday 17th (ONEP? Half-day Rabat, then free time)
Saturday 18th (Departure).

In addition, we have just realized that May 9th is ascension day in NL, which means we will haven no teaching.
5.1.2e and I are discussing a possiblity of travelling a couple of days earlier (on the 9th or 10th of May) to discover the city more freely before the students arrive, but we will confirm this in a separate email once things are more clear.

More soon!

Best,

5.1.2e
