Dear 5.1.2e

Thank you for your message. I will forward this to our 5.1.2e 5.1.2e. I think it would be most helpful if you discuss this with them first. After all, I do not know to what extent they are aware of this case. In addition, you can discuss with them to what extent sending out a questionnaire is the desired means of taking this case further.

With kind regards,

5.1.2e

Subject: Advice on student questionnaire

Dear 5.1.2e and Faculty Board,

I am reaching out on behalf of the Diversity Committee to discuss the circulation of a questionnaire among our student body. This questionnaire aims to address incidents of discrimination reported by students, particularly following a distressing incident brought to our attention prior to the holiday break.

To provide context, 5.1.2i

5.1.2i

5.1.2i

5.2.1

Consequently, we are proposing the distribution of an anonymous questionnaire to allow students to confidentially report any similar incidents they may have encountered.

In light of this, we are seeking your guidance and expertise to ensure that the questionnaire is conducted with the utmost regard for student privacy and data security. We would greatly appreciate any insights or recommendations you may have regarding the appropriate methods and safeguards to implement in this process.

Thank you for your time and help.

With best regards,

5.1.2e (on behalf of the Diversity Committee)
