Ook in Leiden wordt er
opgeroepen om donderdag naar
Gent te komen!

@nsvibes

CUT THE TIES!

Why a boycott?

- Israeli academic institutions normalize and facilitate breaches of international law and human rights treaties including war crimes.
- Neither the Israeli government nor Israeli universities will change their ways without external pressure.
- Israeli universities are tightly woven into European funding and institutional networks and have close ties with Dutch universities including Leiden University.
- A boycott is a non-violent strategy to pressure responsible institutions and states into change.
