leidentegenfascisme 🚓 It's bizarre, but apparently fascist student organisation GNSV will be able to propagate their hateful ideology and create an unsafe space for all marginalised students and staff at @universiteitleiden 's introduction week, EL CID. For a university whose rector claims that "[t]here is no space for antisemitism here", they really do seem to be creating space for it at the information market of the EL CID week.

We can't allow these racist, islamophobic, antisemitic, queerphobic white supremacists to harass marginalised students and spread their filth. We call on all those who oppose fascism to speak out and show up! Prevent these nazis from gaining a foothold in Leiden. Don't come alone, organise amongst yourselves and show up in groups.

Where? Most probably along Nieuwe Rijn, Leiden
When? August 12, 13:00-17:00
