Dear 5.1.2e [redacted]
Unfortunately, once again, there is a suspicion of the use of AI for this draft of your thesis. As this is the second time this suspicion has arisen, also after a stern written warning, I've referred the question to the Faculty Exam Commission for next steps. As you know, the use of AI for the thesis is prohibited.

As it might take a while before the Exam Commission responds, and the deadline is pending, I have sent my comments on your draft attached below. We can arrange a meeting on Monday to discuss the feedback at 14:00 in person at the faculty if you are available then too. Please let me know if you are free then.

Kind regards,

Dear 5.1.2e [redacted]

I hope this message finds you well.

Please find attached the draft of my master's thesis. I would like to kindly note that the table of contents has not yet been inserted, as I hope to finalize it after receiving your valuable feedback. I would be most grateful for any comments or suggestions you may have.

Thank you very much for your time and guidance.

Best regards,
