Dear 5.1.2e

A quick summary of our meeting, as it is not reflected in my written notes, it is very important to address the issue of sources and adequate citations. Also you need to check and verify the actual sources used to rectify the substantive differences between your piece and the sources cited.

This is essential as the current issues raise two potential concerns: 1) the piece was written by AI which is unable to provide accurate sourcing at this time, or 2) there are issues of plagiarism as ideas are being used that are not your own but are not (adequately) being attributed to the correct source. Both of these are offences that would require intervention from the Exam Board if not adequately addressed by the resit.

After our meeting I'm sure the importance of these issues are clear, and I hope that they will be resolved moving forward.

Kind regards,

5.1.2e

Dear 5.1.2e

I hope this email finds you well. Attached is the literature review for my thesis. If there are any issues with the thesis, I am more than willing to make revisions at any time.

Best regards,
