Thank you so much for the answer!

And yes, the interested persons can direct their messages to me, I'll make sure to keep [J] in the loop.

Dear [J],

Yes, we agree with this piece of text. This is a very good opportunity to scout, that should not be missed indeed.

Of course, we will have to open the vacancy officially asap. The logical question is therefore to whom an interested person would send an email to express interest or request information.

My proposal would be: [J] and possibly you?

With kind regards, [J]

Subject: Re: revised draft donor agreement Friends of SHiP Fund

Hi everyone,

Pinging on this again: can anyone from the Leiden side approve us announcing the financing for the position at the SHiP meeting tomorrow? That would be very helpful.

Thanks in advance!

Hello [redacted],

I hope this message finds you well. We are happy to proceed with the suggested changes and are sending you signed versions back.

On a separate note, as you may know, a large SHiP collaboration meeting is taking place shortly, and we would like to briefly mention the opening of the position at Leiden University together with Archai.

The following is the paragraph we intend to present at the meeting: "Archai is a research capital platform investing in human intelligence. It finances university research groups directly - deploying evergreen, success-oriented capital into experiments at the earliest stage of discovery. Archai is backed by technology founders and operators who know first hand that the largest breakthroughs start in experimentation rooms - and that speed is what separates discovery from irrelevance.

Archai is opening its first research position at Leiden University, created together with the university [redacted] a milestone that marks the beginning of turning this private funding model into reality".

We wanted to share this with you in advance and kindly ask whether you are comfortable with this being said publicly at the collaboration meeting. We will of course not proceed without your confirmation.

Thank you, and looking forward to hearing from you.

Warm regards,

Dear [redacted],

With apologies for the delay, please find attached the revised draft agreement, in which I have also incorporated the comments from the institute.

There are a few points I would like to put forward:

- At [REDACTED] request, I have added [REDACTED] to the expenditure committee
- An expenditure committee does not usually include representatives of the donors, therefore we have not included Archai.
- With reference to the following paragraph “facilitate the creation and coordination of a local research team at Leiden University, including researchers, engineers, and technical staff”, the Institute indicated that they can only give technical support to an eventual local research team. The appointment of additional researchers, engineers and additional staff for a period of five years will need additional external funding. Raising these additional funds will be for specific projects, executing these projects might exceed the period of five years.
- I have left the specific dates of the first and final payment open, to be filled out when we are ready to sign.
- We will include the list of participating donors as these have been verified as part of our due diligence.

I hope you can agree with these points. I am happy to further discuss in an online meeting.

[REDACTED] I hope this is not a problem. I will be happy to keep an eye on my emails and can already answer the initial questions via email.

Looking forward to your reply, with best regards,
